SIUE Graduate Speech-Language Pathology
Supplemental Application Materials Information
2023-2024 Application Cycle

The Graduate Program in Speech-Language Pathology at SIUE requires supplemental application materials to gather important information related to professional skills which can be difficult to gather from other application materials. More specifically, we are looking at each applicant's communication, analytical/critical thinking specific to their experience, and self-evaluation (as a process of self-critiquing one's current understanding of self and others, how the experience may have challenged that understanding, and any resulting growth).
